**It is my fervent Hope that
all Republicans can come together
and work through their differences.**

**The future of our Families and Communities
can only be best served by respecting one
another and working together.**

**Only through respectful and open dialogue,
a pragmatic approach to the issues,
and tolerance for difference of opinions,
separate from ideology,
can true communication and understanding
be attained.**

**Jack Novak
DGTR Chairman**

Ronald Reagan's ten best quotes

The most terrifying words in the English language are:
I'm from the government and I'm here to help.

We can't help everyone, but everyone can help
someone.

Government's view of the economy could be summed
up in a few short phrases: If it moves, tax it. If it keeps
moving, regulate it. And if it stops moving, subsidize it.

In this present crisis, government is not the solution to
our problem, government is the problem.

Some people wonder all their lives if they've made a
difference. The Marines don't have that problem.

If we ever forget that we are One Nation, Under God,
then we will be a nation gone under.

Government's first duty is to protect the people, not run
their lives.

It has been said that politics is the second oldest
profession. I have learned that it bears a striking
resemblance to the first.

When you can't make them see the light, make them
feel the heat.

Government is like a baby: An alimentary canal with a
big appetite at one end and no sense of responsibility at
the other.
